OUR LIMITED LIFETIME WARRANTY*

All new, "Al Mar" models manufactured since January 1998 carry our limited lifetime warranty. This warranty covers materials and workmanship for the life of the knife. This warranty is to the original owner of the knife only. Al Mar Knives will, at our option, repair or replace any knife covered by this warranty that we have determined to be defective. The owner must return the knife with a copy of the original bill of sale or other satisfactory proof of purchase that includes the date of purchase. This limited lifetime warranty specifically does not cover abuse, neglect, misuse or lack of maintenance. Broken blade tips are specifically not covered by our warranty. A broken tip is the most common form of abuse. Any modifications and/or disassembly will void this warranty. Only authorized Al Mar Knives personnel can make warranty determinations on our products. All knives should be mailed to: AMK, PO Box 2295, Tualatin, OR 97062. Please include a description of why the knife is being returned, your return address and a daytime phone number.

**This warranty does not include automatic models, which carry a one year warranty.*

Shiva™

The Shiva™ is an original Al Mar design and is the first tactical fixed blade we've ever made with a laminated VG-10 stainless steel blade. Laminating the VG-10 between two layers of 400 series stainless steel increases the lateral strength of the blade by upwards of 30% and does so without increasing the weight or bulk. The Shiva™ has a beautiful tapered tang, contoured and polished black Micarta scales, satin stainless guard and a full grain traditional black leather sheath. It is the finest quality tactical fixed blade we've ever made.

SERE Operator™ and Sheath System

Al Mar SERE™ Knives
SERE™
Survival-Evasion-Resistance-Escape

Our classic SERE™ design in a fixed blade version, the SERE Operator™ features S30V steel with a full-length perimeter tang for maximum strength. The SERE Operator™ has a synthetic sheath system designed for ambidextrous carry in vertical, horizontal or diagonal modes. It can be customized to be attached on a belt, pack or load-bearing equipment – or just about anywhere you can think of – even inside the waist for maximum concealability. The system's extender mounting plate can be easily drilled to allow the user full freedom to customize their attachment point(s). The SERE Operator™ is supplied with the sheath, attachment clip, secondary rubber retainer and extender mounting plate and is one of the most versatile sheath systems available.
