Our Classic, SERE™ design in a fixed blade version – the SERE Operator™ (SR0-V) and Mini SERE Operator™ (MSRO-V) both feature a blade made of VG-10 Cobalt stainless steel with a full length, full perimeter exposed tang for maximum strength. The SERE Operator™ and Mini SERE Operator™ each have matte finished, bead blasted Micarta scales for a comfortable grip that is both non slip and comfortable. In addition to the standard lanyard hook, each Operator™ has three stainless steel lined lashing holes in the handle which in addition to their use for securing for use as a spear, can be used for additional security and customization. Both Operators™ are supplied with a black nylon sheath system designed for ambidextrous carry. It can be attached to virtually any belt, pack or load-bearing equipment or just about anywhere else you can think of... each sheath has an accessory pouch and multiple tie downs.

The SERE 2000™ and Mini SERE 2000™ are world renown as two of the strongest tactical folders in existence. Originally designed by Al Mar and Colonel Nick Rowe in the early 1980's for the U.S. Army's SERE school, today's updated models are stronger, lighter and the most precision versions we've ever made. Available in satin finished VG-10 (S2K) or matte black with our new ceramic coating – the most corrosion and scratch resistant finish we've found. The SERE 2000™ features pillar construction, flow through design, dual thumbstuds and our reversible Deep-Pocket Clip for discrete carry and delivers the kind of performance you need in the real world.

PAYARA™

The tip of the Payara is the nexus of three different grinds, creating a dynamic blade shape that provides superior penetration and cutting power.

The Payara rides deeply in the pocket, tip down, thanks to a black stainless steel pocket clip.

The Payara™ is an aggressive design for the serious outdoorsman, named after the elusive and vicious sabre-toothed fish found in South American rivers that feeds on Piranha by impaling them on fangs up to six inches in length! Building on the proven Al Mar liner lock system, pillar construction, and flow through design, the Payara adds an aggressive new blade for maximum cutting power and penetration. Dual thumbstuds and stainless steel clip complete the package.

PRODUCT CODE: AM-PA2
MSRP: \$265.00

STEEL: VG-10 Rc 59-60

STEEL: Laminated VG-5
Stainless Steel
SCALES: Black Pakkawood

Al Mar Chef Knives offer outstanding edge retention and incredible strength. The VG-2 stainless steel blade is laminated between two layers of 400 series stainless for increased strength which surpasses other kitchen knives made from single layer steels. Each knife is individually gift boxed.
