AutoClip® SERIES

The AutoClip® series is a departure from conventional thinking. We at SOG have pushed the boundaries far into the future by envisioning a fast opening, easy carrying, adjustable, lightweight, sleek, affordable, and visually stimulating cutting system. This is achieved fundamentally with the introduction of our patented adjustable tension mounting clip. It is easily operated with a thumb wheel that allows the knife to be attached to a thick belt,

a thin pocket edge, or to virtually be 'locked on' for extended carry. It solves the problems of conventional clips.

—Another great design from the team of Blackie Collins and Spencer Frazer

OUTDOOR SERIES

Now the revolutionary AutoClip® designs are being offered with dynamic drop point, flat ground blades. Drop point blades are considered superior for hunting, fishing, and many other outdoor activities.

AutoClip
Blade: 3.6"
440A Stainless Steel Rc 56-57

Weight: .7 oz

Through slot in the blade for easy one hand opening

THE TOMCAT™

Knife of the Year

The TomCat™ has become the standard from which all other large folding knives are judged. The complete stainless steel construction, featuring induction welded bolsters is matched with a most aggressive tactile, raised point Kraton® handle to create an evocative powerful feel. Winning the "Overall Knife of the Year Award", the TomCat is definitely one of the most unique knives to ever be produced and spearheads the SOG® family of products.

TomCat and Stingray now available in a Cocobolo handle.

Blade: 3.75" x .200 width Rc 56-57
440A Stainless Steel
Overall Open: 8.25"
Weight: 8.0 oz
Dual Mounting Nylon Scabbard

THE AIR-SOG™

Flying First Class

The Air-SOG™ is one of our most popular knives. It fills the demand for a lightweight, fast-opening, multi-purpose pocket knife. Small enough to be carried in any purse, coat, pack, etc., the Air-SOG™ is big enough to satisfy the variety of chores that you might require. Seldom can you find a knife that is so proportionate where blade and handle approach a 1:1 ratio. The Air-SOG also contributes to cutting comfort with its unique variable checkered handle that is the most tactile where you need it. The Air-SOG truly flies first class!

The Air-Sog™ is also available with a serrated edge which provides more cutting power on fibrous materials such as nylon rope.

Blade: 3.25" x .160 width
440A Stainless Steel Rc 56-57
Overall Open: 7.2" Weight: 2.2 oz
Nylon Pouch

THE STINGRAY™

Put a Little SOG Power in Your Pocket

The Stingray™ captures the spirit of handheld utility and redefines the pocketknife concept. Holding it in your hand, you'll be amazed at the impeccable balance and stunning big blade feel. Beautifully ground, the Stingray blade incorporates the thickest blade for its size in the industry today. This innovative pocket powerhouse possesses other award-winning features such as the SOG® raised point Kraton® grip, induction welded stainless steel bolsters and one of the sharpest edges around.

Blade: 2.75" x .160 width Rc 56-57
440A Stainless Steel
Overall Open: 6.5" Weight: 3.5 oz
Optional Pouch Available

THE MAGNADOT™

You Can Depend On This

The MagnaDot knife signals a new age where large blade size and light weight handle design can interact to produce a stellar package for intense cutting situations. The famous SOG thumb stud enables fast one or two hand opening of the TomCat style blade...even with gloves on. MagnaDot is a cutting system that we feel has evolved and taken the best traits from many of our other products. It is totally SOG. You can depend on this.

Blade: 3.6"
440A Stainless Steel Rc 56-57
Overall Open: 8.25"
Weight: 4 oz
Zytel glass reinforced handle
Nylon Pouch

Available with 1/2 serrated or standard edge!

THE SOGWINDER™

On The Mark

The Sogwinder™ I and II build upon the sound construction ideals of the TomCat and Stingray by offering a drop point folding bowie style blade combined with an ambidextrous thumb stud for one hand opening. The Sogwinder series is definitely the best of both worlds!

GENTLEMAN'S SOG

Sogwinder I blade plus slimline stainless steel handle

THE MICRODOT™ SERIES

Cutting Power Magnified

Introducing the MicroDot series which is strikingly designed to miniaturize powerful cutting capability. These smallest of the SOG lockback pocket knives are extremely sharp, can be opened by one hand and provide the versatility of pocket or keychain carry.

Available in Standard Black, Swiss Red, Emergency Yellow and Outdoor Green

Blade: 2" 440A Stainless Steel
Rc 56-57
Overall Open: 4.5"
Weight: under 1 oz
Available in four colors!

SEAL KNIFE-2000™ *Sea, Air, Land*

After one of the most extensive testing and evaluation programs ever undertaken by the US Government that included knives from most cutlery manufacturers in the US, we are very proud to announce that the SOG Seal Knife-2000 has been appointed the official Navy Seal Knife. The Seals are probably the most specialized elite military group in the world today. SEALS must undergo a rigorous training program that has been devised to produce the consummate warrior. Only a select few endure and are accorded the right to wear the SEAL Trident on their uniform.

This knife evaluation program included the following tests: Tip breaking strengths, blade breaking toughness, sharpness and edge retention, handle twist off limits, two week salt water emersion tests, gasoline and acetylene torch resistance, chopping, hammering, prying, penetration, cutting of 6 different types of rope and nylon line, low noise and reflectivity evaluation, plus an intense hands on competition in the field.

The SOG SEAL Knife-2000 is perhaps the most anxiously awaited and dramatically new fixed blade to come along in years, and it's now available for the civilian market without any changes. You can be assured on this amazing knife that the SEALS have done their homework...so you don't have to.

Blade: 7" x .25 thickness
440A Stainless Steel
Rc 56-57
Overall: 12.25"
Grey Scratch Resistant
Powder Coating

SEAL PUP

Following in the wake of the SEAL KNIFE-2000 this mini rendition features size as it's advantage. Easily stowable, plus an excellent field companion.

Blade: 4.75" x .160
440A Stainless Steel Rc 55-57
Overall: 9" Weight: 5 oz
Zytel glass reinforced handle
Blade: Gray powder coated finish
Sheath: Black leather with mounting clip

MINI PENTAGON

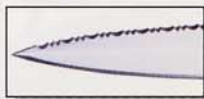

Serious double edge capability in the same awesome design as the original Pentagon only sized down.

Blade: 3.5" x .125
440A Stainless Steel Rc 55-57
Overall: 7.75" Weight: 3 oz
Zytel glass reinforced handle
Blade: Gray powder coated finish
Sheath: Black leather with mounting clip

THE PENTAGON™ *On the Front Line*

The Pentagon sets the policy for action. Originally designed as a back up for law enforcement personnel, the Pentagon is the first multipurpose double edge knife of its kind. The 5" stainless steel blade offers the instant choice between a serrated or bevel edge for cutting options. Twin thumb notches enable accurate blade orientation and downward control. The stainless steel crossguard is custom solder fit and makes the transition between blade and our low profile flared out Kraton® checkered handle. We think you will agree, that the Pentagon succeeds as an evolutionary achievement in cutlery.

Blade: 5" x .160 Rc-56-57
440A Stainless Steel
Overall: 9.75"
Black Leather Scabbard with Mounting Clip

SOG NW RANGER™

Take a Little Bit of Civilization With You

The Northwest Ranger evokes the image of one of the harshest outdoor wilderness areas in the world. Sportsman, fisherman, hunters and outdoor enthusiasts require a knife that can fulfill a variety of tasks, is easy to carry, and can perform in a wide range of environments. With an elongated clip point blade, flat ground bevels, and world famous sharpness, the NWR is up to the task. Featuring a small serrated section on the blade, it leaves more traditional designs behind when extra cutting power is required. The Northwest Ranger showcases quality seldom seen even in the most expensive knives...like soldered crossguard to blade construction. SOG® is known for the comfortable feel, exceptional balance,

Blade: 5" x .160
440A Stainless Steel Rc 56-57
Overall: 9.75" Weight: 6.5 oz.
Nylon Scabbard

THE DESERT DAGGER™

Evolutionary Cutting

The SOG Desert Dagger was initiated from requests by military personnel. It was designed to provide an expanded capability over conventional double edge knives. This diversified knife combines 3 different edge types that enhance cutting power and is matched to a solid steel pommel for "on the spot" hammering in the field. In addition, the Desert Dagger "stands proud" with a custom feature rarely found on knives under \$250...soldered crossguard construction. The DD enlists the SOG® famous aggressive Kraton® grips for the ultimate command and control in the field. A finely tailored tactical nylon sheath completes a package that we feel is worthy of carry on any front in the world! We know you will agree!

Blade: 6.25" x .180
440C Stainless Steel Rc 56-57
Overall: 12"
Nylon Scabbard

SOG BOWIE™

Unparalleled Authenticity

Our original flagship is based on the Special Operations Group knife secretly developed and used in the Vietnam War by the 5th Special Forces and other elite soldiers. These individuals were specialists in reconnaissance, infiltration and behind lines operations. Produced in the original 800 year old samurai sword factory, this knife has become a classic that is unparalleled in authenticity and quality. The extremely thick blade and deep hollow grind make this one of the most appealing blade designs in the industry today. The blued steel crossguard, pommel, and aircraft spanner nut are expertly fitted with overall attention to balance and feel. This is the Cadillac of the SOG line.

Engraved with Vietnam Special Forces Group and the SF Crest. Also available non-engraved by special order.

Blade: 6.25" x .280 SK-5 Carbon
Tooling Steel Rc 57-58 Faceted Tip
Overall: 10.75"
Black Leather Scabbard with Sharpening Stone

THE TRIDENT™

Advanced Sophistication

The Trident is named after our most capable special forces unit...the Navy SEALs and displays its emblem...the Seal Trident. Only a select few survive one of the most rigorous training programs designed to produce the consummate warrior. Our Trident knife embodies this spirit with its exacting and meticulous construction. With its laser cut stacked micarta handle and surgical blade grinds, the Trident will guarantee virtuoso performance at any altitude or depth.

A non-engraved option is available on special order.

Blade: 6.25" x .280
440C Stainless Steel Rc 57-58
Overall: 10.75" Faceted Tip
Nylon Scabbard

SOG-TECH™ *Creating Tomorrow*

Sog-Tech™ is our high-tech fixed blade series that proves function can also be stylish. These sophisticated stainless steel knives are combined with brass crossguards and Kraton® handles for top notch outdoor reliability. The extremely sharp bevel edges are outstanding in their cutting ability and enable the user the freedom of expression for most tasks. The SogTech™ series is the choice to those heading outward in the 1990's!

Sog-Tech 1

Rc 56-57
Overall Open: 11"

Sog-Tech 2

7.25" x .250
440A Stainless Steel
Rc 56-57
12.5"

SOG GOVERNMENT™ *On Target*

Never has state of the art cutlery been so affordable! The Government's all stainless steel construction combined with a razor sharp edge ensures executive cutting performance whether on land, sea or air. SOG products are famous for their weather proof solder fits between blade and guard and the Government follows suit with this unparalleled construction feature...a first in it's class. In addition, our tough Kraton® handle with wrap around checkering provides the finest tacky grip available in any environment...wet or dry. The handle is protected by a steel pommel that offers the advantages of a field hammer. The Government is an advanced technology product capable of superior performance.

The Recon Government features the same high carbon tooling steel as our SOG Bowie and the deepest gun-blued finish available.

Blade: 6.2" x .180

440A Stainless Steel Rc 56-57

Overall: 11.25"

Nylon Scabbard

THE TIGERSHARK™ *Pure Elegance*

For those of you who require the full range capability that the big blade offers, the Tigershark's™ futuristic blade shape integrates chopping, slicing, and point work like never before. This modernistic bowie is manufactured from the finest exotic carbon steel and features a premier rolled edge for superior performance. The high tech molded Kraton handle encapsulates the Tang and provides a gripping comfort that translates into maximum effectiveness with minimal effort. The feel is pure elegance...the feel is pure Tigershark.

Now produced with a new protective, low-reflective grey powder coating.

Blade: 9" x .250

Rc 56-57

Overall: 14"

Leather Scabbard

INNOVATIONS...The introduction of new ideas, is the fundamental theme that has made SOG® a name that you can depend on. We at SOG Specialty Knives and tools are dedicated to creating the highest standards of production cutlery and multi-purpose tools in the world.

The #1 Manufacturer of Specialty Knife & Tool Products

We use the strongest steels, finest materials, and newest manufacturing techniques combined with traditional hand craftsmanship to ultimately produce the sharpest and most durable edges in the industry.

Our products utilize simple yet complex designs that are timeless in their aesthetics and engineering. They appeal to

ones basic appreciation for precision and creativity. The magical feel of SOG knives has become a trademark: perfectly balanced and sculpted so that the blade does the work as if on its own. SOG products are created for the enthusiast, sportsman, adventurer, professional, serviceman or anyone who can appreciate precision cutlery at its finest!

On the Cover: This high speed photograph was frozen at one millionth of a second and captures a jacketed 45 caliber bullet split after being fired from point blank range. The blade shows up white where lead has been deposited after seventeen shots.

SOG SPECIALTY KNIVES...Built *Especially* for You

POWER PLIER

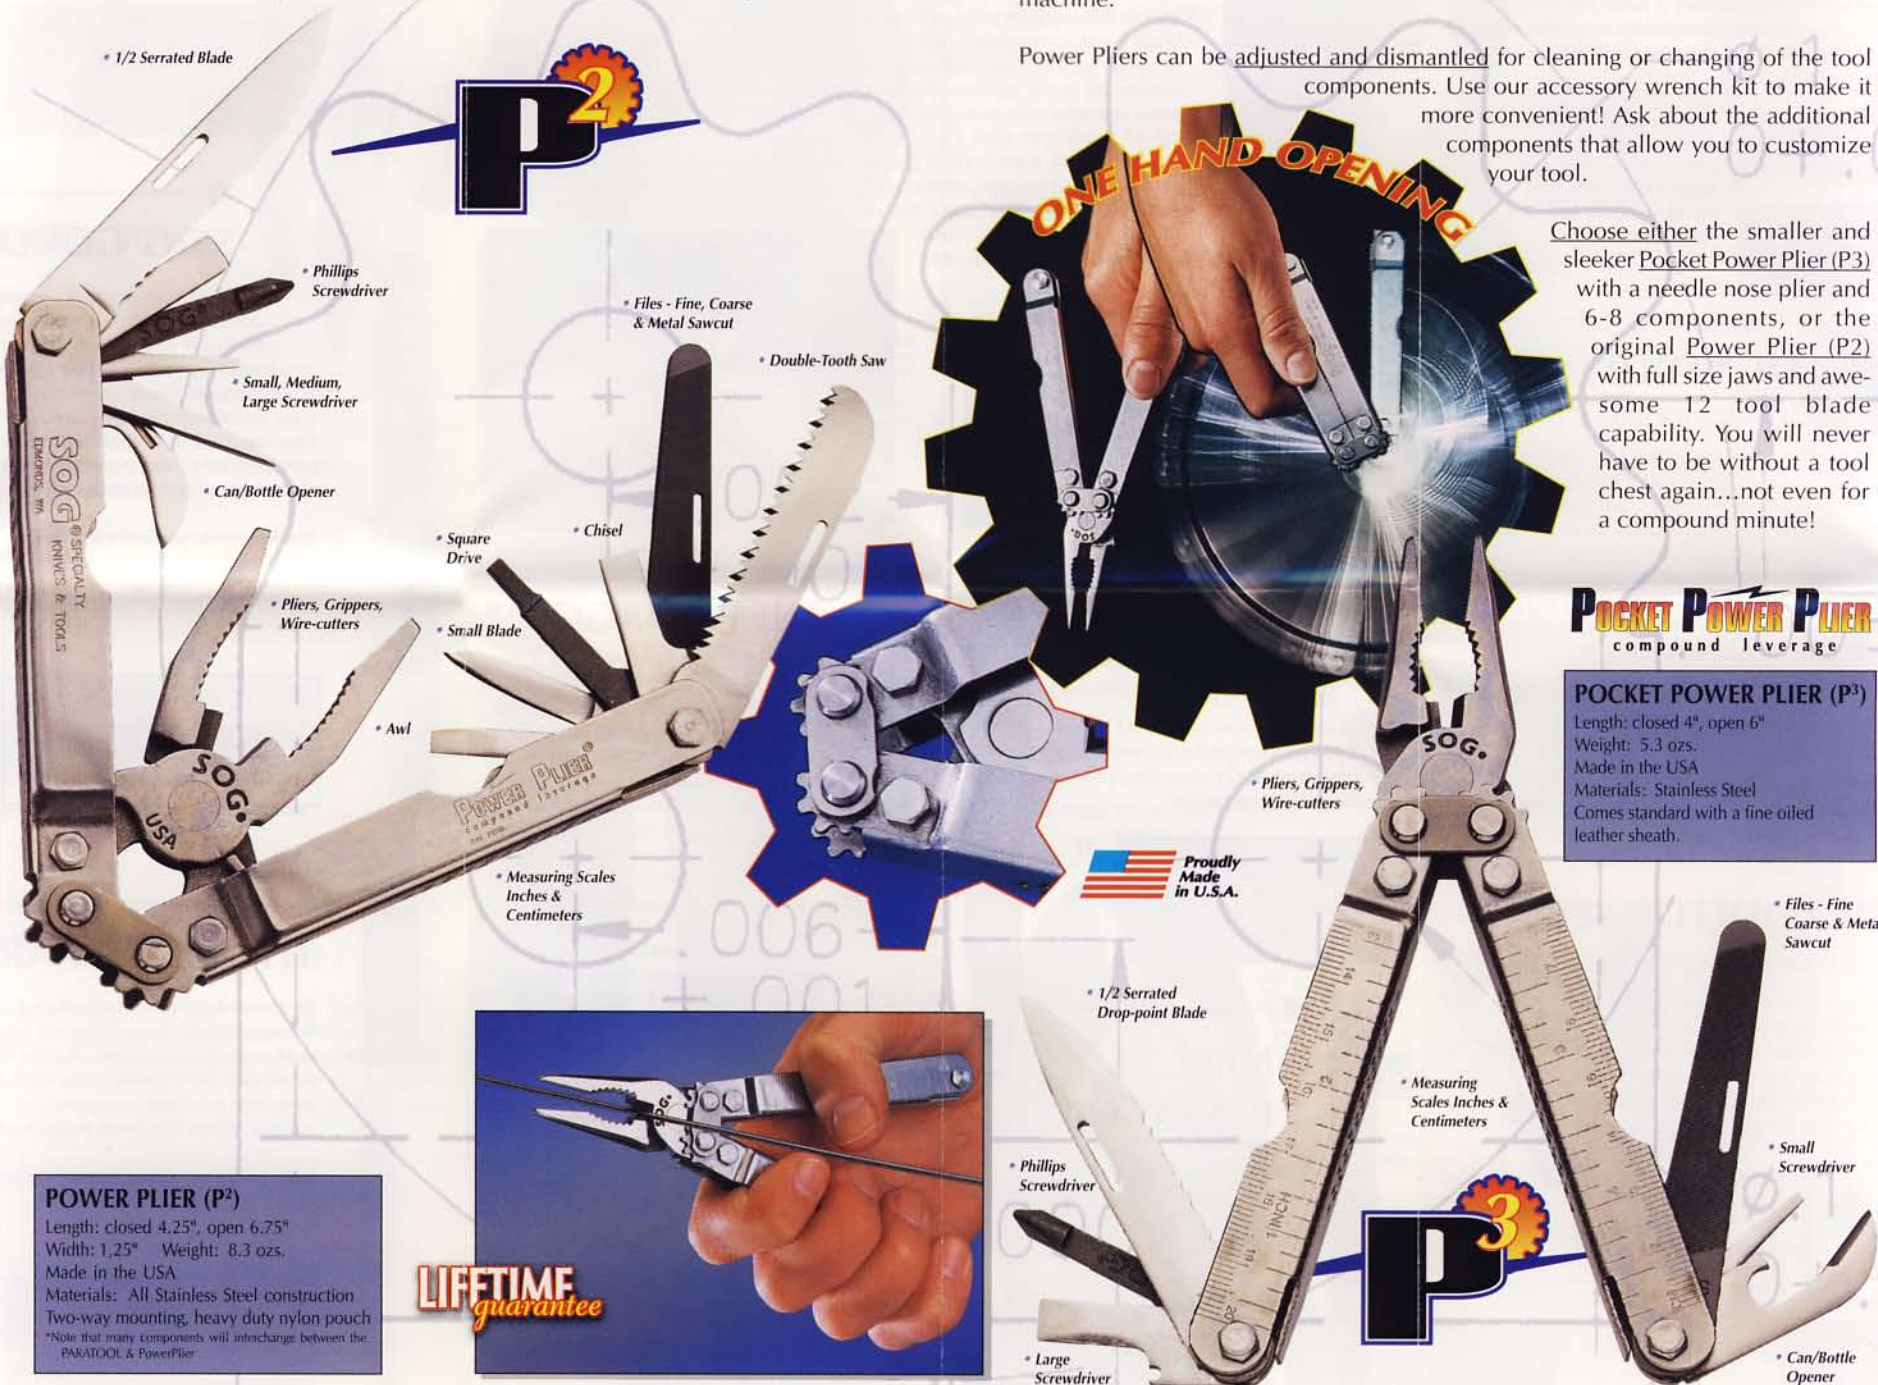

compound leverage SERIES

The Power Pliers are the only tools of their kind to use compound leverage! What this means is that with the same hand strength you can generate twice the wire cutting and plier gripping strength than in all other conventional designs.

Another first is the use of intermeshing gears which allow the pliers to be flipped open with a simple one hand release...similar to the butterfly knife! Grab your Power Plier while balancing on a tight rope, flip it out and enjoy working with a crafted machine.

Power Pliers can be adjusted and dismantled for cleaning or changing of the tool components. Use our accessory wrench kit to make it more convenient! Ask about the additional components that allow you to customize your tool.

Choose either the smaller and sleeker Pocket Power Plier (P3) with a needle nose plier and 6-8 components, or the original Power Plier (P2) with full size jaws and awesome 12 tool blade capability. You will never have to be without a tool chest again...not even for a compound minute!

POWER PLIER (P²)

Length: closed 4.25", open 6.75"
 Width: 1.25" Weight: 8.3 ozs.
 Made in the USA
 Materials: All Stainless Steel construction
 Two-way mounting, heavy duty nylon pouch

*Note that many components will interchange between the PARATOOL & PowerPlier.

POCKET POWER PLIER (P³)

Length: closed 4", open 6"
 Weight: 5.3 ozs.
 Made in the USA
 Materials: Stainless Steel
 Comes standard with a fine oiled leather sheath.

TWICE THE POWER WITH NORMAL HAND STRENGTH!
