

SOG 2002

Creators of Extraordinary Tools & Blades **NEW PRODUCTS**

IN A FLASH!

The new Flash™ line of folders delivers a whole new speed in lightning-quick blade access. SOG's patent-pending S.A.T.™ (SOG Assisted Technology) is the backbone for this novel mechanism that helps propel the blade open once the operator has initiated the one-handed opening action. They're fast, safe, and provide an extremely strong blade lock. Invented by Spencer Frazer, who always manages to come up with something cleverly different, this opening action is uniquely different from all others with its fast start and power curve throughout the movement of the blade. You can feel the difference when closing the knife into the handle as it snaps shut with authority.

This new family of lightweight knives uses a uniquely strong piston lock, which is easily released with a sliding button. SOG also had the foresight to incorporate an additional safety lock that gives added security when the blade is closed. Note that when the switch shows "red"...you are ready to go.

The USA made Flash I and II come standard with glass reinforced Zytel handles and 1/2 serrated blades. Options include straight edge blades, black TiNi 1/2 serrated blades/clips/pivot, and hard anodized 6061 T6 aluminum handles with graphite coloring. All Flashes come standard with SOG's patent-pending, reversible bayonet mounted clip that insures the lowest, discreet carry possible.

SPECIFICATIONS: Flash I

Flash I Blade 2.5" • Handle: 3.25" • Weight: 2 oz.
AUS 8 Stainless Steel • Lifetime Warranty • Made in USA

(Both come in half-serrated blade only)

IN THE BLINK OF A KNIFE

Blink...and you just might miss it. The Blink is the new executive folding lockback that defies convention with SOG's Assisted Technology. Once the operator has initiated the blade opening action, S.A.T.™ propels the stainless steel blade out and firmly locks it into place. We warn you...this blade action is addictive. Play with it once, and you'll be opening it again and again. There is even an extra safety lock built in. The T6061 T6 machined aluminum handles are hard coated anodized with graphite coloring and feature a reversible, low-carry clip. At a well-mannered price of \$39.95, the Blink is the gentleman's knife with a naughty attitude.

SPECIFICATIONS:

Blink (BBA-99)
Blade: 2.125" • Handle: 3.125" • Weight: 2.oz.
AUS 8 Stainless Steel Blade • Lifetime Warranty
Blink (BBA-99): \$39.95 (UPC# 7-29857-00099-4)

X-42 Field Knife

"What would it take to make the ultimate field knife?" We think that we have answered this question with the introduction of the X-42 Field Knife. It is constructed from an exotic, stainless steel called BG-42 that custom knife makers have raved about. BG-42 is extremely hard, durable, and takes an incredible edge. The drop point, flat ground blade is perfectly shaped and balanced for hunting, fishing, and camping chores. The full tang handle is a sandwich of Zytel™ glass reinforced slabs and steel while the finger grips and handle's geometry provide a secure feel with or without gloves. The X-42 Field Knife's black leather scabbard is designed for a friction fit with retention strap. We are able to deliver all of these features at an affordable price. Now that's the ultimate.

SPECIFICATIONS:

X-42 Field Knife (BGH-93)
Knife Blade: 5.4" x .140" Rc 59-60
Handle: 5.25" • Weight: 6.5 oz.
MSRP: \$109.95 (UPC# 7-29857-00093-2)
BG-42 Stainless Steel Blade • Made in the USA

Field Pup

The new Field Pup is a beautiful knife with its high-gloss satin finish, typically found only on expensive knives. It's the right size and weight, suitable for a variety of outdoor sporting tasks. It's comfortable to use with its Kraton™ molded handle that form fits the full tang blade. SOG's trademarked finger grips are combined with aggressive thumb notches on the back of the blade, making the Field Pup a real working knife. The blade is also protected by a black, leather sheath.

SPECIFICATIONS:

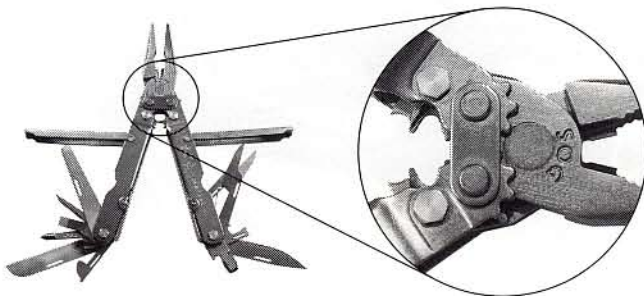

Field Pup (FP-3)
Knife Blade: 4" x .130" • Rc 57-58
Handle: 4.5" • Overall: 8.5" • Weight: 3.5 oz.
MSRP: \$49.95 (UPC# 7-29857-00003-1)
AUS 8 Stainless Steel Blade • Lifetime Warranty

EOD PowerLock

Using the proven PowerLock chassis, SOG showcases the new EOD PowerLock. It includes all of the great PowerLock features with the addition of a hard wire cutter and a blasting cap crimper. Unlike all other designs, the crimper jaws are mounted on the opposite side of the plier, allowing for an uninterrupted plier jaw and minimizing breakage. Compound leverage also makes crimping almost effortless.

SPECIFICATIONS: Cap Crimper PowerLock (S61) & (B61)

Length Closed: 4.6" • Open: 7.0" • Weight: 9.5 oz.
(S61) MSRP: \$79.95 (UPC# 7-29857-00061-1)
(B61) MSRP: \$84.85 (UPC# 7-29857-06161-2)
All Stainless Steel • Lifetime Warranty • Made in the USA

888-SOG BEST

SOG 2001

Creators of Extraordinary Tools & Blades **NEW PRODUCTS**

Mini X-Ray Vision

Due to consumer feedback, SOG has reconfigured its popular X-Ray Vision in a new smaller size. The Mini X-Ray Vision features the same award winning, ATS-34 steel blade as it's big brother, but is almost two inches shorter. It's a pleasure to carry thanks to its finely textured Zytel™ handle that is both lightweight and ergonomic. Its partially serrated three-inch blade opens quickly and smoothly via the patented SOG Arc-Lock™. Knife buyers throughout the industry praise the strength and ambidexterity of the Arc-Lock's lightning action and positive blade lock-up. Also included is SOG's signature "low-carry" clip. Both strong and easily attachable, this clip keeps the knife completely hidden within a pocket or vest.

SPECIFICATIONS:

Mini X-Ray Vision (MXV72)
Blade: 3" • Handle: 4" • Weight: 2.6 oz.
MSRP: Mini X-Ray: \$84.95 (UPC# 7-29857-00072-7)
ATS-34 Stainless Steel Blade • Lifetime Warranty

Sculptura

SPECIFICATIONS:

Sculptura (SCT85)
Blade: 2" • Handle: 2.75" • Weight: 2.1 oz.
MSRP: Sculptura: \$39.95 (UPC# 7-29857-00085-7)
AUS 8 Stainless Steel Blade • Lifetime Warranty

Fitting in the palm of your hand, the Sculptura's organic shape has a silky, contoured feel of a stream-worn stone or beach-tumbled shell. It is distinctive. It is unusual. It raises the standard of fine pocket knives. The essence of this masterpiece is SOG's ambidextrous Arc-Lock™ assuring action that is impeccably, swift, strong and safe. Sculptura's two-inch, drop-point blade is more than capable of daily chores; and its lightweight, ergonomic Zytel handle is comfortable to hold and maneuver. Sculptura also has a stout clip for extended carry or for holding folded bills.

SOG DUO

Just when you thought a knife was just a knife, SOG has created one that is more, much more. The new SOG Duo almost defies description. Is it a fixed blade or a folder? Let your customers decide. The Duo has a special locking safety frame that surrounds the blade and folds into the handle. Some people would call this a sheath, we think of it as a great idea. And, for those customers who can't decide between a straight or serrated edge, you can now tell them they can have both-in-one! The SOG Duo has two different blade edges offering a multitude of performance capabilities. Any flat-head screwdriver or pocket coin will unscrew the bolt holding the blade and allow it to be turned. The amazing Duo is easily accessed with one hand and has a removable clip as well as a lanyard hole providing a variety of carrying options. So light and compact, this versatile blade is a great accessory for any outdoor scenario.

SPECIFICATIONS:

Duo (SD86)
Blade: 2.75" • Weight: 2 oz.
Overall: 7" with safety frame around blade.
MSRP: Duo: \$39.95 (UPC# 7-29857-00086-4)
AUS 6 Stainless Steel Blade • Lifetime Warranty

Outline

When the going gets tough, the advantage is sometimes determined by the slimmest of edges. Knowing this, we created the Outline. Not fancy, not heavy, not bulky...simply slim-line functionality. The feather-light Outline can be carried quietly around the neck via a lanyard or in pocket or boot by being attached with the sturdy clip on its water-proof Kydex sheath.

Its unique handle design maximizes usability for its size while its utilitarian blade shape reinforces the edge and tip. The hole in the Outline's handle is intended for a finger to anchor the blade while in-hand, allowing the knife to be used with power; and it even doubles as a bottle opener. This critical implement differentiates the Outline from other skeleton-type knives.

**SPECIFICATIONS:**

Outline (SO90)

Blade: 2.5" • Overall: 4.6" • Weight: 1 oz.

MSRP: Outline: \$24.95 (UPC# 7-29857-00090-1)
440A Stainless Steel Blade • Lifetime Warranty

SCUBA/Demo

If it were any rarer, there wouldn't be one at all...The SOG SCUBA/Demo is the rarest SOG knife and the rarest military knife in existence. How can we claim this? Because only one original knife is known to exist today. We are now offering a reproduction of this amazing, mystical knife. We have vastly improved the knife in every way to make it a high-quality, functional knife that you will be proud to own and use. The seven and a quarter inch stainless steel blade is a rugged .230 inches thick and most uniquely features a double-edged blade with serration along the spine. The full tang is surrounded by a stacked leather washer handle that is epoxied together and secured with a brass pommel and spanner nut. An elegant brass crossguard insures a sure grip and also contributes to the excellent balance of this fighter/field knife. Each SCUBA/Demo comes with a black leather sheath, sharpening stone and leather lanyard.

**SPECIFICATIONS:**

SOG SCUBA/Demo (SSD89)

Blade: 7.25" • Handle: 5" • Weight: 12.8 oz.

MSRP: SCUBA/Demo: \$230.00 (UPC# 7-29857-00089-5)
AUS 8A Stainless Steel Blade • Lifetime Warranty
